Procedural Issues

* All meetings and all meeting materials are open to the public. VDOT may hold certain materials confidentially if they are proprietary or would compromise future bargaining positions. In practice, these exceptions are extremely rare.

* Panel members and staff may view the proceedings via video conference (live) or videotape. Tthe proceedings are taped.

* The first two meetings of this panel are similar to Commonwealth Transportation Board work sessions and no public comment will received. One or more public comment sessions will be scheduled.

* We are trying to build a written record and will be asking the proposer, staff, and interested parties to provide written comments.
